

## 2013 AUGUST - CBS RETIREE MEDICAL COVERAGE FOR PRE - 65 MEDICAL BENEFITS

CBS has confirmed the following:

The circular went around yesterday confirming ex Westinghouse 25 year guys do not have to buy any insurance for ourselves as we are post 65 to keep our spouse covered for pre 65 coverage. Its exactly as you described from Ray.

I asked about reimbursement of previous funds and was told no; not possible. We can only do things going forward. If anyone has coverage for themselves as I had, you have to call and cancel that coverage and it becomes effective the first of the following month.

I told the rep to cancel my coverage and keep my spouse covered so it will be effective Sept 1st.

I told the rep that I had already sent payment for Sept that was for both of us and she told me she will get back to me to explain how I will get a credit for Sept.

So tell the guys, if anyone is in the same situation as I am, they need to call asap to cancel their coverage; CBS will NOT automatically do it.
